I am including the detailed procedure as to how a student should enroll to get the $30 rate. Student will have a total of 6 weeks if he/she wants to continue practicing.

A student in Calculus 1 is required to get to an 80% on the PIE within 2 weeks. You received ZERO credit if you do not get to that level within the 2 weeks. It is easy to achieve. Please ensure that you are careful when you take the initial assessment. It will mean less work to do. This same exam is used for Calculus 2 and a 90% is required. It may be used also for MAP 3305 and MAP 4306.

This is not the placement exam you took to enroll in Calculus 1 or 2.

The registration for ALEX should be as detailed in the instructions below. If student already has an ALEKS id, that CANNOT use it for the above courses. Here is what the student should do:

1. Go to www.aleks.com
2. Choose "Sign Up Now" on the ALEKS home page
3. You'll be asked for an ALEKS course code - Be sure to enter the code provided to you by your instructor in the first box. For example, the code may look like "ABCDE-FGHIJ." Click CONTINUE.
4. A confirmation of the course name and number will display.
5. Make sure this is your ALEKS course, and click CONTINUE.
6. You'll now be asked to enter an Access Code. CLICK THE LINK THAT Says, "purch- ase an access code online." You must purchase your code in this manner in or- der to receive the correct access code.
7. Follow the instructions on the screen to fill out your credit card information to pur- chase your code.
8. You will get a log-on id (user name) and a password which you can change. You will also be prompted to enter your last name and your first name. You will also be asked to enter your email. You must use your FAU E-MAIL which is in the form xxx@fau.edu
