

## Progress on Small and Large Ramsey Numbers

Stanisław Radziszowski, Rochester Institute of Technology, NY, [spr@cs.rit.edu](mailto:spr@cs.rit.edu)

The latest revision (#17) of the dynamic survey *Small Ramsey Numbers* appeared in the *Electronic Journal of Combinatorics* in 2024. In this talk we will overview new developments since 2021 reported therein, including: breakthrough in asymptotics, some amazing improvements of the bounds on the classical Ramsey numbers, and some less known but also impressive results on general graph Ramsey numbers. We will also reveal some details of the logistics of evolving survey and its special features.

**Keywords:** Ramsey numbers, **AMS** subject classification: 05C55
