

The department has several endowed scholarships which will be awarded this Spring. The awards range from \$500 to \$10,000. The graduate scholarships require letters from two FAU mathematics faculty members. In a day or two I should have a link for submission of letters. You need only write one letter for each student; they will be considered for all awards for which they qualify. However, if you feel strongly about a nominee, consider encouraging others to write them a letter as well.

GRADUATE SCHOLARSHIPS

Arthur Cayley Graduate Scholarship

- Criteria: Graduate students with a 3.5 GPA in Mathematical Sciences working towards a degree in Algebra, Cryptology, or Combinatorics who have demonstrated excellence in Ph.D. research are recognized as excellent and dedicated teachers while performing duties as GTAs.

Leanne and Spyros Magliveras Graduate Award

- Criteria: Graduate students with a 3.4 GPA in Mathematical Sciences who have successfully completed the qualifying examinations.

James Brewer Scholarship

- Criteria: Graduate students with a 3.0 GPA in Mathematical Sciences who have successfully completed the qualifying examinations with a high passing score in Abstract Algebra.

Gus and Sharon Pearthree Math Graduate Scholars Award

- To be eligible for this scholarship, students must major in Math. Priority shall be given to students enrolled as Ph.D./doctoral candidates. Qualified recipients must be considered excellent students, researchers and/or instructors and among the best of the post-graduate math degree candidates. Preference will be given to United States citizens or Green Card holders.

Here is a link to [the form for letters of recommendation](#)

If you are recommending more than one student, please upload your letters in separate form submissions.

Students are automatically considered for each scholarship for which they are eligible, so please send only one recommendation letter per student.

You must be logged into your FAU account to submit this form.

Consideration will start March 31 so for full consideration, letters should be sent earlier than that.

For more information, please contact Dr. Aaron Meyerowitz: meyerowi@fau.edu
